INSIGHTS

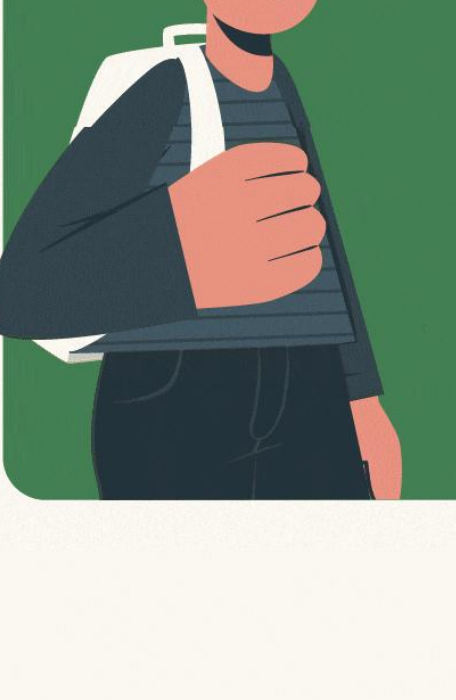

Most interactive media design students don't practice physical activity, just having breaks or short stretching exercises.

Usually they have the same daily routine, get up, get into the class, go to eat and repeat.

CONTEXT

Due to the quarantine and virtual classes, students have developed a number of physical problems. If not treated, they can result in more serious health conditions stemming from poor ergonomics and lack of physical activity.

USER PERSONA

Camilo Torres

21
Cali - Colombia
Interactive Media Designer
Lives with his parents

Biography
He lives at home with his parents and a younger brother; is in the sixth semester of college and does not work. He is passionate about photography, animation and watching series on Netflix.
